

How to Edit Your SPI Therapist Directory Listing

- The directory is not connected to your SPI login
- After creating your listing you will receive an email with an Access Key. This key will be needed to edit your listing.

Step 1

To begin, view your listing and select "edit" in the lower right corner.

Step 2

After selecting "edit," you will be prompted to Directory Login page.

**Please use the Access Key in your confirmation email.*

Step 3

Enter the email used to create your listing and Access Key code. Then, select "Use Access Key."

Step 4

Click "Next" at the bottom of the page to continue to your listing settings.

From the settings, you can update your bio descriptions, add photos, and more.

Step 5

Once you have completed your updates, check the captcha and complete your listing.

We recommend therapists listed on the SPI Therapist Directory offered at sensorimotor.org update their listings annually.
